

Improvements

- The Kangaroo consent window will now only appear for customer contacts and on normal invoices.

Fixes

- CardConnect Bolt pinpads now support multiple payments using the same card type.
- Fixed an issue in the Service Sales Report where refund values were not displayed correctly.
- Resolved a calculation error affecting the ending values of the credit line in the Accounting Posting Report.
- The Action window for items in the Stock Count screen now properly displays inventory adjustments.
- The Imported Inventory Value in the Accounting Posting Report no longer includes stock counts.
- Fixed an issue with the Matrix Conversion Tool.
